SOUTH BEND, Indiana – August 8, 2018 – The Pokagon Band of Potawatomi Indians and Four Winds® Casinos are pleased to announce a \$115,000 gift was presented to Beacon Health System today at a special ceremony in downtown South Bend. The ceremony took place in the Atrium of the Children's Hospital.

The donation represents proceeds from the 2018 Four Winds Invitational which took place June 8 – 10 at Blackthorn Golf Club in South Bend. The funds will underwrite two patient power-load systems for Beacon Children's Hospital pediatric emergency transport units, as well as four portable radios to be used during MedFlight patient transfers.

This is the seventh year of the partnership between The Pokagon Band, Four Winds Casinos and Blackthorn, with proceeds totaling \$545,000 for Beacon Health System.

"We are incredibly grateful for our long-standing friendship with the Pokagon Band, Four Winds Casinos and Blackthorn," said Kreg Gruber, CEO of Beacon Health System. "In seven years, they have raised over a half-million dollars to fund projects that directly help people when they need it most. We're a stronger community because of them."

"Four Winds Casinos is proud to sponsor the Four Winds Invitational and support a great organization like Beacon," said Frank Freedman, COO of Four Winds Casino. "Collectively, we all work hard to create an event that makes this tremendous impact on our region. We'll continue to make it bigger and better each year—it's going to be great for our community for many years to come."

In years past, the Invitational has helped construct a multi-story building above the Memorial Leighton Trauma Center for the General Pediatrics Unit, Pediatric Intensive Care Unit, Newborn Intensive Care unit, and Pediatric Hematology/Oncology Clinic. The building, part of the hospital's SHINE Campaign, features extended family rooms, single family rooms, playrooms and teen hideout spaces for patients, Family Enrichment Centers, a rooftop garden, and a butterfly room for families grieving the loss of a child. Funds have also allowed Beacon Children's Hospital to purchase a pediatric ambulance, MedFlight incubator and ultrasound, giraffe warmers for the NICU, virtual reality goggles for pediatric patients, and three patient simulators to assist with educating and training area pediatric healthcare professionals.

About the Equipment

The Stryker Power Load System lifts and lowers the patient cot into and out of the ambulance, reducing spinal loads and the risk of cumulative trauma injuries. The power load system and the cots are wirelessly connected for easy operation and consistent support for the cot, enhancing the safety of the patient and ambulance personnel.

The APX7000 portable radios allow for more effective communication between the care providers in the field, the pilot and communication center.
